

Cash Redemption Terminal Premium

The latest generation ecash Cash Redemption Terminal (CRT) maintains its stylish design and now incorporates an extra-large touch screen and edge lighting that invites customers.

The ecash Premium CRT delivers easy to use payment options and the new large screen is perfect for communicating with your customers on the gaming floor. The ecash Premium CRT is payment agnostic and allows your customers to interact with the venue through tickets, cards, cash and loyalty effortlessly. While cash and reject notes are kept secure in separately lockable compartments, in a digital time-lock delay controlled safe.

Key Benefits:

- Intuitive and easy to use
- Slimline design with compact footprint
- Extra-large customer friendly colour touch screen
- Gaming ticket thermal printer
- Four-way large capacity barcode ticket and bill acceptor
- Multi-layer security on cash
- Digital time-lock delay controlled safe
- Integrated UPS for minimising downtime
- Cash level monitoring
- Reconciliation of cash payments
- Convenient and easy service access

The Premium CRT looks elegant and is a modern addition to our venue. The extra-large screen is easy to use by all patrons. While the integrated Patron Call Attendant Button enables us to quickly react to patron needs.
